While the prior art of record discloses most in the instant application, it fails to disclose, either alone or in combination, a first portion which contains functions for use in both of said different complexities of simulation; and a second portion comprising two alternative versions: a first version for use in one of said different complexities of simulation, wherein the first version utilizes a neural network; and a second version for use in the other of said different complexities of simulation, wherein said first portion comprises a behavior selection mechanism arranged to select the behavior of said creature and said second portion is arranged to execute the selected behavior (claim 1); a first mode arranged to simulate the activities of all of said creatures; and a second mode arranged to simulate an activity of at least one of said creatures at a more detailed computational level of complexity than said first mode, wherein a model of a creature simulated in both modes of simulation comprises at least two portions: a first portion which contains functions arranged for use in both of said

modes of simulation; and a second portion comprising two alternative versions, a first version for use in said first mode of simulation, and a second version for use in the second mode when selected for closer inspection of the at least one creature being simulated (claim 9); a first version for use in one of said different levels of complexities of simulation when selected for closer inspection of the process being simulated; and a second version for use in the other of said different levels of complexities of simulation, wherein the second version is for use in the less complex level of the simulations, and is arranged to approximate the functionality of the first version (claim 10); a first portion which contains functions used in both of said different levels of complexities of simulation; and a second portion comprising two alternative versions, a first version used in one of said different levels of complexities of simulation when selected for closer inspection of the process being simulated, and second version used in the other of said different levels of complexities of simulation, wherein the second version is for use in the less complex of the simulations, and is arranged to approximate the functionality of the first version (claim 14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
